Sending email

I used EmailJS to implement contact form.

URL

https://www.emailjs.com/

https://www.npmjs.com/package/emailjs-com

State Management

I used React Hooks and Context API for state management because it is not third-party library such as Redux.

Design Framework

I used default theme of Semantic UI for the design.

URL

https://react.semantic-ui.com/

Image Resource

I downloaded image files from unsplash.com
